Description

Paradox NV780MX

• **Features**

- The NV780MX provides a pre-entry protection solution while keeping the perimeter free from movement, designed to protect exterior/interior walls and doors or windows.
- NV780M rugged indoor/outdoor detector incorporates two double passive infrared side-by-side detectors (right and left view), independent of each other with separate Active IR Anti-Mask detection for each side.
- The optics are specially designed to provide multiple narrow beams for excellent detection covering up to 12m (40ft) for each side.
- Range adjustment is performed by adjusting the viewing angle of the bottom facing beams (moving them up and down).
- The detectors are configurable to report as a single unit (two side detectors reporting to a single zone output) or as dual units (each side reporting to a separate zone).
- Two double passive infrared motion detector with:
- Dual side Active IR Anti-Mask detection - Active IR Anti-Mask detection, fast 20 seconds detection designed for outdoor detecting sprayed liquids and blocking items up to 25 cm (10 in.)
- Pet Immunity capability, up to 40 kg (90 lb)
- 4 dual element sensors arrangement

- High efficiency long focal point (1.77 in.) LoDiff lens
- Combination optics - mirror and Fresnel Lens for optimal sharp detection
- Single or Dual operation modes
- Optical and digital range adjustments
- Dual LED and buzzer indicators
- Wall-mount, with built-in level tool
