Description

FAAC 615 BPR Automatic barrier

- The 615 barrier is designed for beams from 2m to 4m in length.
- The standard barrier is for beam lengths up to 4m with an opening time of 6 seconds whilst the rapid version will open a beam up to 2.5m in 3 seconds
- The whole 615 range has an anti-crushing hydraulic safety device - a hydraulic lock to hold the barrier open or closed and a triangular manual release key
- Use of cutting-edge materials and treatments - plus tried and tested FAAC technology - all combine to ensure a long life
- The cabinet is arranged to house the 615 BPR control board - specifically designed for this barrier
- The barrier is fitted with a limit switch kit and can have an optional anti-vandal valve fitted
- **New style round beam**
- We now offer a new style of round beam to fit the 615 barrier. The new style of beam is available in 2 - 3 and 4m lengths. The beam can be fitted with LED strip lighting as an alternative to the beam lights and skirt kits are available to suit the new beam style.
