Description

Zivy Ten 120

- Hand-held Tension Meter.
- The Zivy hand-held Tension Meters accurately measure the running line tension of yarns and fibers.
- They feature two precision ball-bearing mounted V-grooved rollers capable of measuring high line speeds.
- Extremely compact and light weight (300 g).
- Supplied in a foam-fitted, hard plastic carrying case with instructions and a spanner wrench to remove the roller (if necessary).
