Description

FAAC 844 ER 3PH 400V (MPN 109924) Sliding gate operator with Control Board FAAC E844 3PH

- The 844 R 3PH is for sliding gates with a max weight of 1800kg.
- 844 ER Z16 for rack applications.
- 844 R for rack applications (without pinion - without control board).
- 844 R CAT for chain applications.
- 844 R RF for chain applications with idle transmission.
- Designed to move commercial or industrial gates in the simplest - most convenient way.
- The special twin-disk anti-crushing clutch - in an oil-bath - enables thrust adjustment from 0 to 110 daN.
- As the gearmotor is non-reversing no electric locks need be installed.
- In the event of power failure the key operated release device makes it possible to open and close the gate manually.
- Electronic programming is by 3 push buttons and an LED display making installation set up easy.
- The control board is contained in a separate protective housing inside the operator and a patented cable gland protects against insect access.
