Description

FAAC S418 24V (MPN 104301) swing gate operator.

- The S418 24v electro-mechanical operator is ideal for residential gates with single leaf length up to 2.7m (2.3m without electric lock).
- The operator has a long stroke - 350mm as standard but 390mm without stops; this makes it more adaptable to various pillar
- dimensions.
- With an adaptable rear bracket requiring no welding - allowing great flexibility in mounting to the gate pier.
- There are in-built mechanical stops - so no need to install external stops.
- A fast opening and closing speed - maximum of 1.8cm per second - an angular rotation speed of 4.9° per second.
- This is the first unit of its type to come with a protective sheath over the worm screw for additional safety.
- IP54 rated.
