Description

FAAC S450H CBAC 24V (MPN 104100) Hydraulic gate operator.

- The S450H is a 24v hydraulic swing gate operator for residential swing leaf gates with single leaf length up to 2m (CBAC) or 3m (SB).
- Faster closing/opening speed (> 2.5 cm/s).
- Integrated Bus encoder (FAAC patent) with anti-crushing safety with reverse on obstacle detection function.
- Flexible and easy to install thanks to the multi-position adjustable brackets.
- Effective stroke (> 300 mm).

- Gate speed and force can be adjusted through the electronic control board.
- No hydraulic locking SB version with tri-drive valves (FAAC patented) and easier manual leaf movement.
- Integrated opening/closing mechanical stops included in the operator.
