Description

FAAC SF140 (MPN 105569) Folding door operator.

- The SF140 automatic folding door with breakout anti-panic system is particularly suitable in environments with limited space where it is not possible to install a normal sliding door and where an escape route is needed.
- Automatic folding door with integrated anti-panic system.
- Suitable for environments that do not allow the installation of traditional horizontal sliding doors and in places where an escape route is needed.
- Built with specially made extruded aluminium - rounded edges and the absence of external hinges give it a sleek and slim finish.
- The door movement system uses ball bearings which guarantee lightness and durability.
- Removable aluminium alloy supporting structure for easy transport and on-site assembly.
- Compliance with EN16005 in terms of escape route and mechanical breakout.
