Description

FAAC XBFA ON (MPN 105090) - XFBA ST (MPN 105132) Door Safety Sensor

- The XBFA ON is a presence sensor for linear - telescopic and curved automatic sliding doors made up of a double failsafe active infrared curtain.
- The three-dimensional area of the infrared curtain - without safety beams - protects people from any contact with the doors.

- **Features**
- Simple adjustments using DIP-Switches.
- Easy positioning and localising using mechanical adjustments and spotfinder.

- High protection thanks to two 24-infrared spot failsafe curtains (EN 16005).
- Adjustment of the infrared curtain width with prisms.
- XBFA ON (MPN 105090) Mounting height of up to 3 metres.
- XFBA ST (MPN 105132) Mounting height of up to 3,5 metres.
- Detection stability in sensitive areas.
